BOARD OF ADJUSTMENT APPEAL.

- 4-A-1. The City Clerk read In the Matter of Application of Columbus Hospital, owner and applicant, to permit in a 2nd Residential District, construction of a five-level public parking garage and exceeding height limit and with insufficient front and side yards and with an elevated covered bridge to adjacent hospital; and construction of a two-story side addition to hospital with insufficient front yards; and subject to site plan approvals; for premises at 467-511 North 13th Street.

(Mr. Ahmadeen Ameerullah, Appellant)

(Board of Adjustment hearing held January 10, 1990)

(Transcript filed January 29, 1990)

(Councilwoman Villani arrived 8:57 P.M.)

The Board of Adjustment at its regular meeting held January 10, 1990, approved the application by 6 ayes and 1 nay.

An appeal in this matter was filed in the Office of the City Clerk on January 24, 1990, by Mr. Ahmadeen Ameerullah.

The transcript in connection with this matter was received January 29, 1990, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On January 30, 1990, the City Clerk notified the applicant, the applicant's attorney, the appellant and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting February 21, 1990, at 8:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

President Martinez stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment In the Matter of Application of Columbus Hospital, owner and applicant, to permit in a 2nd Residential District, construction of a five-level public parking garage and exceeding height limit and with insufficient front and side yards and with an elevated covered bridge to adjacent hospital; and construction of a two-story side addition to hospital with insufficient front yards; and subject to site plan approvals; for premises at 467-511 North 13th Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to the testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MR. ROBERT ASTE, ESQ., OF THE FIRM OF MORGAN, NULISH MONAGHAN, 651 WEST MOUNT PLEASANT AVENUE, LIVINGSTON, NEW JERSEY, ATTORNEY FOR THE APPLICANT requested the Municipal Council affirm the Board of Adjustment's decision on this application.

MR. AHMADEEN AMEERULLAH, 433 NORTH 12TH STREET, NEWARK, NEW JERSEY.

MR. VINCENT PALUMBO, 492 NORTH 15TH STREET, NEWARK, NEW JERSEY.

MR. RONALD DRAUCIKUS, ESQ., ATTORNEY FOR MR. ARNOLD CECE, 482 NORTH 12TH STREET, NEWARK, NEW JERSEY.

MR. MARK LANDRIGAN, 443 NORTH 12TH STREET, NEWARK, NEW JERSEY.

The above-mentioned speakers addressed the Members of the Municipal Council requesting that the Board of Adjustment's decision in this matter be denied.

Councilman Carrino read the following statement:

"On January 10, 1990, the Board of Adjustment by a 6 - 1 vote granted variances to permit Columbus Hospital to expand its parking facilities by construction of a five-level parking garage with an elevated covered bridge to the adjacent hospital and construction of a two-story side addition to the hospital would exceed the district's height limit and have insufficient front yard, and side yards and requires site plan approval. The addition would have insufficient front yard and also requires site plan approval. The property is located in a second residential district.

A hearing was held on the application for the variances by the Board of Adjustment. Columbus Hospital was represented by Robert Aste, Esq., and its Associate Administrator, Mr. Richard Giorgino. Mr. Giorgino testified as to the hospital's history, present activity, future impact of the expansion, and compelling need for the additional parking and additional space. Other supportive testimony in these areas was provided by Dr. Joseph Prestifilippo, President of the Hospital Medical Staff. Mr. Murray Sput, an Architect; Mr. David Mendelson, a Traffic Engineer; Mr. Carl Picillo, Assistant Director of Security at the Hospital; Mr. Tino Rosa, a Local Realtor; Mr. Raymond Thaler, a Civil Engineer; and Mr. Philip McCormick, A.I.A., who would serve as the proposed Project Manager.

Objecting testimony was given by Vincent A. Palumbo, Grace Faretto, Dean Amarillo, Robert Griffith, Peter Cece and Joe Mercuri. All the objections centered on the proposed garage construction. No objections were made to the proposed expansion of the hospital itself.

After all testimony was presented the Board of Adjustment adopted a resolution dated January 10, 1990, approving the application. The decision was based on the following factual findings:

1. This site has frontages of approximately 652 feet on the east side of North 13th Street and 643 feet on the west side of North 12th Street.
2. It is approximately 200 feet in depth.
3. It is now used as a hospital with parking lots.
4. The area within a 200 foot radius is composed principally of residential use, stores and a few commercial uses.

The Board further determined that special reasons had been shown and the relief requested by the applicant Columbus Hospital could be granted without substantially impairing the intent and purpose of the Zone Plan and Zoning Ordinances of the City of Newark based on the following reasons:

1. Hospital representatives have had several meetings with Community members and changed plans several time to address concerns.
2. The height limit for a second residential zone is two and one-half stories and the proposed building would not greatly exceed the limit. In fact the hospital voluntarily lowered the proposed height of the parking facility from 60 feet to 35 feet.
3. Screening will hide the parked vehicles from view and extensive landscaping both integrated into the facility and surrounding it will enhance the neighborhood .

4. There will be additional security including a uniformed "rover guard" on duty 24 hours per day and electronic camera surveillance.

5. Additional parking will be available to employees of and visitors to the hospital, thereby freeing up additional parking spaces on the streets for area residents.

6. There was no expert testimony that the extended garage will create a negative environmental impact nor was there any expert testimony that property values would be diminished, or that traffic or crime would increase.

7. There was expert testimony that the environment would be improved and that property values would not be diminished.

Pursuant to New Jersey Statutes Annotated 40:55D-70(1-2) the Board of Adjustment has the power, in particular cases, and for special reasons, to grant a variance to allow departure from zoning regulations to permit a use or principal structure in a district restricted against such use or principal structure, and an expansion of a non-conforming use. No variance or other relief may be granted unless it can be done without substantial detriment to the public good and will not substantially impair the intent and purpose of the Zone Plan and Zoning Ordinance.

Under present law this Council, as the City's governing body has the authority to make a de novo review of the record established before the Board of Adjustment and reach its own decision in this matter subject only to the requirement that its findings and conclusions are supported by the record. Kessler v. Bowker 174 N.J. Super 478 (A.D. 1979). The Council's power is comprehensive and it may reverse, remand or affirm, with or without the imposition of conditions, the final decision of the Board of Adjustment.

Applying such a standard of review the Council has reviewed the transcript of the hearing before the Board of Adjustment and makes the following determinations:

1. This Council agrees with the Board of Adjustment's decision to grant the variances.

2. To receive a variance from the Board of Adjustment the applicant must satisfy two criteria; (a). they will suffer undue hardship if the variance is not granted and (b). the variance will not result in a substantial detriment to the public good or the zoning plan, Nash v. Board of Adjustment of Morris Twp. 96 N.J. 97 (1984). Various experts testified on the specific topic of undue hardship and the other expert witnesses produced by the applicant justifies a finding that denying the variances would in fact amount to undue hardship and granting it would not result in a substantial detriment to the public good or the zoning plan.

3. Extensive expert testimony was given as to the severe need for additional parking and additional hospital space the structural and aesthetic aspects of the proposed facilities, positive impact on housing values, positive traffic impact, and positive environmental impact.

4. Objections to the application were:

(a) against potential carbon monoxide fumes from cars that would encroach the residential property adjacent to the proposed facility as well as the potential creation of additional noise and the potential blocking of sunlight.

February 21, 1990

(b) against a potential increase in the amount of traffic in the area and a potential increase in criminal activity.

(c) against a potential decrease in property values.

5. The Board's vote in favor was six to 1.

Based on the foregoing reasons the Council is affirming the Board's decision granting the variances permitting the use requested by Columbus Hospital on condition that no parking activity will be conducted on the roof of that facility; therefore, making it a four-level parking garage was made by Councilman Carrino, seconded by Councilman Bradley and declared adopted by President Martinez by the following votes:

Yes: Councilmen Bradley, Branch, Carrino, Grant, Villani, President Martinez.
Not Voting: Councilmen Harris, Rice, Tucker.

Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to the testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal.

Agreements under this ordinance shall be governed by the N.J.S.A 40:55C67.1, and 40:55C-99.1 et seq. and the tax abatement ordinances of the City of Newark. Such extension shall be granted at the sole discretion of the City of Newark and shall be for a maximum period of 15 years, commencing on the day following the termination of the financial agreement in force and effect on the date of the enactment of N.J.S.A. 40:55C67.1, 40:55C-99.1 et seq. (August 14, 1986). At the conclusion of that period of extension, no further extension shall be granted. The City Council shall by resolution approve or disapprove the application and authorize the City's entry and execution of the financial agreement.

In the event of disapproval, the Municipal Council may suggest changes it may deem necessary in order to secure its approval. An application may be revised and resubmitted in accordance with the provisions of this ordinance, at no additional cost to the Applicant.

A. Form of Agreement

All agreements for tax abatements shall be consistent with the requirements of N.J.S.A. 40:55C67.3. and 40:55C-99.1. The agreements shall be in the form appropriate to the nature of the abatement and the nature of the developer as filed with the City Clerk at the time of the adoption of this ordinance. Such agreements shall at a minimum set forth the identification of the affected property, the nature and magnitude of the improvements to be constructed thereon, the consideration to be paid to the city and the conditions thereon, the duration of the agreement and the grounds for its termination. The agreements shall in all cases further provide that any change made in the ownership of the project or which would materially change the terms of the agreement shall void the agreement unless such change has been approved by resolution of the Municipal Council. The agreements shall require the timely submission of certified audits of the cost of construction and of the annual financial operations of the project, and shall require timely payment of all municipal taxes, fees and charges arising out of the agreement or in any way arising out of the affected property. The agreement shall provide that the failure to comply with the requirements of audit and payment, or with any substantive condition of the Agreement, shall permit the City to unilaterally terminate the agreement, and/or to exercise such other remedies as may be provided by statute, this ordinance or the agreement. The agreement shall contain such other information as required by the Corporation Counsel.

B. Execution of Agreements

Upon authorization by the Municipal Council, it shall be the responsibility of the City Clerk to insure that the agreement is fully executed. No agreement shall be considered to be in force and effect unless and until it has been signed by the developer, the Corporation Counsel and the Mayor, after which it shall be certified by the City Clerk by his signature and the affixing of the Municipal Seal.

C. Distribution of Executed Agreements

Once an Agreement has been fully executed, the City Clerk shall be responsible to distribute executed copies thereof to the developer, the Tax Assessor, the Tax Collector, the Construction Code Official and the Corporation Counsel. The City Clerk shall retain one executed copy which shall be placed on permanent file within his office, where it shall be available for examination by the public during regular business hours.

D. Minimum annual service charge

Whenever the minimum amount of the annual service charge for the project, as determined pursuant to Sec.1-10:11A - 10A shall exceed the amount which otherwise would be due as the annual service charge, the amount determined pursuant to Section 10 shall be deemed to be the amount of the annual service charge.

For any project, the minimum annual service charge shall be the amount of the total taxes assessed against all real property in the area covered by the project in the calendar year immediately preceding the year in which that area was acquired by the municipality or its agency, or by the private or public owner from whom the urban renewal entity acquired the land.

10:11A-10 - Financial Obligation of the Entity

The Entity shall be required to pay all applicable payroll taxes, sewer taxes, parking fees, hotel taxes or other obligation to maintain the tax exemption for the project. For and in consideration of the City's granting an extension for the project, the Entity shall be required to pay an Annual Service

Charge, an Annual Tax Levy Adjustment, an Annual Capital Improvement Adjustment and an Annual Excess Profit Payment. The failure to pay any of the financial obligations of whatsoever type or nature shall result in the termination of the tax abatement.

A. Calculation of the Annual Service Charge

The agreement shall further provide for the payment of an annual service charge by the applicant to be the greater of the following: either the amount of the minimum annual service charge determined pursuant to Section 1-10:11A-9D of this Ordinance or the amount of such annual service charge to be paid to the City as has been determined by the Council at the time of the adoption of this ordinance and has been reflected and filed with the City Clerk at that time. Such bases for annual adjustment may be modified hereafter by adoption of a resolution for the purpose, at which time the form of those changes will be filed with the City Clerk. Changes made hereafter shall not affect agreements then in existence, but shall only affect agreements approved after the adoption of such change.

B. Calculation of Annual Tax Levy Adjustment

The annual service charge for these projects shall be further increased in each year of the extended period by an amount as hereinafter determined: For each year following the first year of the extended period, there shall be added to the annual service charge the amount produced by multiplying the annual service charge for the project in the previous year by the percentage that the total tax levy of the municipality for the current tax year has increased over the total tax levy of the municipality for the immediately preceding tax year. For the purposes of this section, "total tax levy" means the total amount the municipality is required to raise by property taxation for municipal, school and county purposes, as shown in the Table of Aggregates prepared pursuant to R.S. 54:4-52 and set forth in Column 12D of the Abstract of Ratables for the county. In any year in which there is no increase or a reduction in the total tax levy of the municipality, the amount to be added pursuant to this paragraph shall be zero.

C. Annual Capital Improvement Adjustment

In addition, the annual service charge for these projects shall be further increased by the Capital Improvements required to be made to those projects pursuant to the provisions of Section 1-10:11A8 of this ordinance or by any other capital improvement made thereto. The amount of the increase to be added in each year of the extended period pursuant to this paragraph shall be determined by multiplying the cost of the capital improvement to the project by the applicable percentage rate as

provided in this subsection. The amount to be annually added to the annual service charge under the provisions of this paragraph shall first be added in the year in which the affected capital improvement is deemed completed by the municipality, pursuant to Section 8 of this ordinance.

D. Annual excess Profit-Payment

The Entity shall also make an excess profit payment within ninety (90) days after the close of the fiscal year, based upon the actual performance of the project. The provisions of N.J.S.A. 40:55C-66 and 98. The additional payment by the developer shall be submitted, along with a statement by a certified public accountant, attesting that the excess profit payment was based upon the gross revenue derived in accordance with N.J.S.A. 40:55C-40, et seq.

10:11A-11 - Administration of Agreements

Except where the provisions of this ordinance control, the Manager, Division of Tax Abatement and Special Tax shall be responsible for administering the terms of the agreement, following the procedures set forth in Title 10, Finance and Taxation, Chapter 11, Procedures for Application, approval and Administration of Tax Abatement Agreement of the Revised Ordinances of the City of Newark.

10:11A-12 - Final Accounting and Termination of Extension

Upon the termination of any exemption extended pursuant to this ordinance, the project, all affected parcels and all improvements made thereto shall be assessed and subject to full taxation consistent with other taxable properties within the City. All restrictions and limitations upon the entity shall terminate and be at an end upon the entity's rendering its final accounting and payment of all financial obligations to the City including and not limited to annual service charge, annual tax levy adjustment, annual capital improvement adjustment and excess profit payment. The payment and certified audit shall be submitted to the Manager, Division of Tax Abatement and Special Tax within ninety (90) days of such termination. The payment shall be made pursuant to N.J.S.A. 40:55C-66 or 98, as applicable.

Where such a sale is allowed the conditional certificate permitting the sale shall state the conditions that are to be remedied as well as the time for compliance. The final certificate of compliance shall be issued only after the conditions in the conditional certificate have been met.

- 4-A-1. (Board of Adjustment hearings held January 24, 1990 and February 28, 1990)
(Transcripts filed March 19, 1990)

The Board of Adjustment at its regular meeting held January 24, 1990, adjourned this matter to February 28, 1990.

The Board of Adjustment at its regular meeting held February 28, 1990, approved the application by 5 ayes and 1 nay.

The transcripts in connection with this matter were received March 19, 1990, and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On March 19, 1990, the City Clerk notified the applicant, the applicant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting April 4, 1990, at 1:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

President Martinez stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment In the Matter of Application of Integrity, Inc., owner and applicant, to permit in a Third Business District, conversion of a vacant four-story building to a residential narcotics, alcohol and drug abuse center and offices related thereto, at premises 105 Lincoln Park, Newark, New Jersey. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

MR. MICHAEL OSTERMAN, ESQ., OF THE FIRM SHANLEY AND FISHER, 131 MADISON AVENUE, MORRISTOWN, NEW JERSEY, ATTORNEY FOR THE APPLICANT.

MR. DAVID KERR, EXECUTIVE DIRECTOR, INTEGRITY HOUSE, INC., 47 LINCOLN PARK, NEWARK, NEW JERSEY.

The above-mentioned speakers addressed the Members of the Municipal Council requesting them to affirm the Board of Adjustment's decision on this application.

President Martinez read the following statement:

"On February 28, 1990, the Board of Adjustment by a 5-2 vote granted a variance to permit the Integrity Inc., Drug Treatment Program to expand its facilities by conversion of a vacant four-story building to a residential substance abuse treatment facility and offices related thereto. The property is located in a 3rd business district.

Two hearings were held on the application for the variances by the Board of Adjustment. Integrity Inc., was represented by Michael Osterman, Esq., and its President, Mr. David Kerr. Mr. Kerr testified as to the organization's history, present activity, future impact of the expansion, and compelling need for the residential facility. Other supportive testimony in these areas was provided by Mr. Richard Grossklaus, Vice-President of Integrity Inc., Mr. Harrison Williams, former United States Senator, Mr. John W. Farrell, Director of Treatment for the New Jersey State Dept. of Health, Division of Alcohol and Drug Abuse Control, Ms. Callie Struggs, Director of the City of Newark's Dept. of Health and Human Services, Mr. Martin Tieger, a Real Estate Appraiser, Mr. Jackie J. Tamburello, a Newark Policeman, and Mr. Richard Preiss, a Licensed Professional Planner.

Additional supporting testimony was given by George Hagley, a Representative of the Department of Corrections of New Jersey, Gloria Westry, a resident of 81 Lincoln Park, Russell Gunoy, a resident of Integrity, and Mac Martin a former resident of Integrity. The Board of Adjustment counted over 50 people in support of the application.

There were four objectors. Objecting testimony was given by Edson Murray, Mary McGowman, Caridad Laboy and Julie Concepcion.

After all testimony was presented the Board of Adjustment adopted a resolution dated February 28, 1990 approving the application. The decision was based on the following factual findings:

1. This L-shaped lot has frontage on the South side of Lincoln Park of 27 feet with a depth of 108 feet and a frontage on the West side of Broad St. of 7 feet six inches and a depth of 77 feet.

April 4, 1990

2. On the lot is a vacant four-story building formerly used as a hotel.

3. The area within a 200 foot radius is composed principally of residential use, stores, a music school, and a building presently used for drug rehabilitation and Lincoln Park.

The Board further determined that special reasons had been shown and the relief requested by the applicant Integrity Inc., could be granted without substantially impairing the intent and purpose of the Zone Plan and Zoning Ordinances of the City of Newark based on the following reasons:

1. There is an acute need for additional drug treatment slots in the City of Newark and in the State of New Jersey. The number of drug addicts in the City of Newark and in the State of New Jersey in need of treatment greatly exceeds the existing number of available treatment slots.

2. The length of waiting lists to enter drug treatment programs in the State of New Jersey are such that the waiting time averages 3-6 months or longer, depending on the type of treatment program. The current abuse treatment facility is approximately 6 months long and this list consists of approximately 550 persons, of whom approximately 90 are Newark residents.

3. The current long length of waiting lists for drug treatment facilities is a significant problem because (1) it discourages many addicts from seeking treatment, and (2) addicts waiting for treatment tend to continue to use drugs, commit crimes, and spread AIDS through the sharing of intravenous needles.

4. The State Department of Health has issued a Certificate of Need to the Applicant for an additional 42 residential drug treatment beds.

5. The Applicant's proposed substance abuse treatment facility will help meet the acute need for additional drug treatment slots in the City of Newark and in the surrounding region. The Applicant will give priority for admissions to its program to Newark residents.

6. The Applicant is a non-profit corporation which is funded by private contributions and grants from the State and Federal governments. Ninety-nine percent (99%) of its clients are indigents.

7. Integrity's existing treatment programs, including its existing residential drug treatment programs, have been located on Lincoln Park for over 20 years. During this time, there have been no instances of residents committing crimes within the neighborhood while enrolled in the program, and Integrity has not had a detrimental effect on crime within the neighborhood.

8. Integrity residents regularly perform supervised volunteer work in the neighborhood.

9. Uncontradicted expert testimony on Applicant's behalf demonstrates the location of Integrity's existing treatment programs on Lincoln Park has not had a detrimental effect on property values in the Lincoln Park area, and the proposed use will not adversely affect surrounding property values in the future.

April 4, 1990

10. Applicant's expert witnesses testify that while some residents of Integrity may be infected with the HIV virus, but because of the supervised, drug-free nature of Integrity residential substance abuse treatment program, HIV infected residents pose no threat to the health of residents in the neighborhood. Integrity's program includes AIDS education and counselling, which will help reduce the spread of AIDS. Furthermore, by reducing drug use, additional drug treatment facilities will help reduce the spread of AIDS in the region, and specifically in the City of Newark, where 70% of the reported cases of AIDS have been contracted through Intravenous drug use, and where an additional 9% of the reported AIDS cases were contracted through heterosexual contact with infected intravenous drug users.

11. The granting of the requested ordinance will not substantially impair the intent and purpose of the zone plan and zoning ordinance because on balance, the benefits associated with the proposed use will outweigh any zoning harms which may result from the granting of the requested variances.

Pursuant to New Jersey Statutes Annotated 40:55D-70(1-2) the Board of Adjustment has the power, in particular cases, and for special reasons, to grant a variance to allow departure from zoning regulations to permit a use or principal structure in a district restricted against such use or principal structure, and an expansion of a non-conforming use. No variance or other relief may be granted unless it can be done without substantial detriment to the public good and will not substantially impair the intent and purpose of the Zone Plan and Zoning Ordinance.

Under present law this Council, as the City's governing body has the authority to make a de novo review of the record established before the Board of Adjustment and reach it's own decision in this matter subject only to the requirement that its findings and conclusions are supported by the record. Kessler v. Bowker 174 N.J. Super 478 (A.D. 1979). The Council's power is comprehensive and it may reverse, remand or affirm, with or without the imposition of conditions, the final decision of the Board of Adjustment.

Applying such a standard of review the Council has reviewed the transcript of the hearings before the Board of Adjustment and makes the following determinations:

2. To receive a variance from the Board of Adjustment the applicant must satisfy two criteria; (a). they will suffer undue hardship if the variance is not granted and (b). the variance will not result in a substantial detriment to the public good or the zoning plan, Nash v. Board of Adjustment of Morris Tp. 96 N.J. 97 (1984). A licensed municipal planner testified on the specific topic of undue hardship and the other expert witnesses produced by the applicant justifies a finding that denying the variances would in fact amount to undue hardship and granting it would not result in a substantial detriment to the public good or the zoning plan.

April 4, 1990

3. Extensive expert testimony was given as to the severe need for the additional facility, the structural and aesthetic aspects of the proposed facility, neutral impact on housing values, positive traffic impact, and positive environmental impact.

4. Objections to the application were:

(a) against the saturation of the Lincoln Park area with drug treatment facilities.

(b) against a potential increase in the amount of traffic in the area and a potential increase in criminal activity.

(c) against a potential decrease in property values.

(d) against an increase in parking problems.

5. The Board's vote in favor was 5-1.

Based on the foregoing reasons, the Council is affirming the Board's decision granting the variance permitting the use requested by Integrity with the following conditions:

1. That no additional applications for expansion present or creation of any new facilities for drug treatment will be made to the Board of Adjustment by Integrity, Inc., at this location or any other within the City of Newark.

2. That for the next two years, Integrity, Inc., will provide a yearly report to the City Council addressing each objection raised by the citizenry to show that their concerns have been met.

3. That the primary clients shall be Newark residents.

4. That this said yearly report will address a master plan for the facilities as well as a phase-out plan.

5. That the said yearly report will address the progress and results of treatment of individuals served by the new facilities, i.e., recidivism, employment, criminal involvement, etc.

6. Any violation of any of these aforementioned items shall result in the revocation of the variance at the conclusion of the two-year period was made by President Martinez, seconded by Councilman Tucker and declared adopted by President Martinez by the following votes:

Yes: Councilmen Bradley, Branch, Carrino, Grant, Harris, Tucker, President Martinez.

Not Voting: Councilmen Rice, Villani.

A meeting was held June 20, 1990, and the Municipal Council deferred action on the application.

On June 21, 1990, the City Clerk notified the applicant, the appellant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting July 11, 1990, at 1:00 P.M., in the Council Chamber, Second Floor, City Hall, Newark.

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment In the Matter of Application of Wilbert Ruiz, Applicant, Wilbert and Benigna Ruiz, Owners, to permit in a Second Business and First Industrial Districts, Automobile, Body and Fender Repairs and Spray Painting and with accessory parking conducive to a back-out maneuver onto an arterial street on premises 597-605 Springfield Avenue and 696 South 14th Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

No one appeared.

Councilman Bradley stated the following:

"On April 25, 1990 the Board of Adjustment by a 6-1 vote granted a variance to permit the establishment of automobile, body and fender repairs and spray painting with accessory parking conducive to a back-out maneuver onto an arterial street, at the premises cited above.

A hearing was held on the application for the variance by the Board of Adjustment. The applicants Wilberto and Benigna Ruiz were present and testified.

There were thirty-two objectors. Objecting testimony was given by Charles Richardson, Louise Dancy, Debra Lindsay and Douglas Bailey.

After all testimony was presented, the application for the establishment of automobile, body and fender repairs and spray painting with accessory parking conducive to a back-out maneuver onto an arterial street, at the premises cited above was approved and the Board of Adjustment adopted a resolution to that effect dated April 25, 1990. The decision was based on the following factual findings:

1. This site is located on the South corner of Springfield Avenue and South 14th Street and is approximately 20,000 feet.

2. The area within a 200 feet radius is composed of vacant lots, residential and business uses and churches.

The Board further determined that the relief requested by the Applicant can be granted without substantially impairing the intent and purpose of the Zone Plan and Zoning Ordinance of the City of Newark based on the following reasons:

1. The applicant produced evidence that parking needs could be accommodated inside the body shop.

2. The new business would produce tax ratables from a property that now provides no tax ratables.

5

July 11, 1990

3. The business would be in an area where a spray paint booth could safely fit into the areas scheme of business activity.

4. Developing the site fits into the revitalization policy of the City as well as the policy to improve the area in question.

Under present law the Newark City Council, as the governing body, has the authority to make a De Novo review of the record established before the Board of Adjustment and reach it's own decision in this matter, subject only to the requirement that it's findings and conclusions are supported by the record. Kessler v. Bowker, 174 N.J. Super 478 (A.D. 1979). The Council is directly responsible to the citizenry and has the right to apply it's own expertise and knowledge of the community and make a final evaluation based on the record created before the Board of Adjustment. Thus the Council may reverse, remand or affirm, wholly or in part, or may modify the final decision of the Board.

Applying this standard here the Council has reviewed the transcript of the hearing before the Board of Adjustment and makes the following determinations:

1. This Councilman does not support the Board's conclusion granting the requested variance and notes the absence of any evidence of Applicant's hardship in the record before it, see Nash v. Board of Adjustment of Morris township 96 N.J. 97 (1984).

2. Objections to the application were:

a) against putting an auto body shop in an area where it may be an aesthetic, environmental and social detriment.

b) against an increase in parking problems as well as traffic congestion.

c) against the possibility that the applicant will park cars awaiting repairs outside of the body shop building.

d) against the increase in the level of environmental toxins in the area due to spray painting activities.

3. Testimony revealed that the area would not undergo a substantial or radical change if an auto body shop were allowed but it would present a detriment in the minds of the area residents. This is of tantamount importance.

Based on the foregoing reasons I hereby request that this Council reject the variance permitting the establishment of automobile, body and fender repairs and spray painting with accessory parking conducive to a back-out maneuver onto an arterial street, at the premises cited above." was made by Councilman Bradley, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Bradley, Branch, Harris, Martinez, Rice, Tucker, Villani, President Grant.

Absent During Roll Call: Councilman Carrino.

At this time a moment of silence was held in memory of the persons who lost their lives in the 1967 rebellion in the City of Newark.
